I'm sure by now you've caught wind of the infamous Rob Kight, DEA letter concerning the ban of THC-O that has been blasted all over the internet. Here are a few things you should know:

- This is a misleading ulterior motive piece by Rod Kight.
- Rod Kight is a marijuana Lobbyist who has scammed people within the hemp industry to think THCA is legal so his marijuana growers can make money on a dying marijuana market.
- Rod Kight is being sued by many people for misleading them on THCA so he's trying to spin and deflect.
- Marijuana lobby has always targeted THCO because it's potency is competitive with marijuana.
- The DEA does not write laws! In 2021 the DEA came out with an option letter saying delta 8 was an illegal schedule 1 drug and also saying full spectrum CBD oil was illegal.
